

Emergency Response Bin – ERB3000

LEGENDARY QUALITY

Hazardous Waste, Natural Disasters, Medical Spills and Clean-Ups

The Emergency Response Bin (ERB) is designed to show all Local Enforcement Agencies including visits from OSHA, AQMD, Fire Authorities, and Insurance Representatives the preparedness of your facility or remote on site operation to respond to emergency needs all within a moment's notice.

Response time and appropriate equipment during the course of an emergency is the key to your response success and reflects positively as to your public, environmental and personnel safety concerns. Enhance your spill contingency plan by incorporating the readiness of the Emergency Response Bin (ERB).

This ERB-3000 is our towable unit; a road ready trailer sitting at your yard ready for immediate dispatch to any situation. The ERB-3000 boasts the following features:

- Attaches to all pick-up trucks with a 2" ball.
- Keeps cleaned up spill materials contained properly during transportation
- Has front polyon steel caster for easy moving when not in service
- Great for special events and community gatherings.
- Can be outfitted with a variety of emergency equipment specific to your response needs.
- Minimizes environmental impact with less remediation afterwards.
- Stay one step ahead with regulator's regulations.
- Enables on site personnel to quickly respond to emergencies.

Emergency Response Containers

LEGENDARY QUALITY

Hazardous Waste, Natural Disasters, Medical Spills and Clean-Ups

For a quick response time you must have a well thought-out, prepared strategic plan in place. **ConFab's ERB is the solution!**

- 10 GA bottom, 12 GA sides and 14 GA back.
- 7 GA channels (end loader).
- 11 GA bottom fork channels.
- 1" x 3" Tube reinforced top perimeter.
- Drain plug conveniently located for cleanout.
- Floor sump with in seam weld to handle spill materials with proper secondary containment.
- Gas piston spring-assisted lids to make opening and closing easy and convenient.
- Tractor spring assisted ramp with reinforced tube frame and safety grip.
- Stainless steel hardware to eliminate rust.
- Special poly-on steel casters.
- Chrome oversized handles make it easy to move.
- Custom-built side cabinets available with and without shelves for storage.
- Floor mat to keep spilled material from tracking outside.
