

Split Containers

EFFECTIVE RECYCLING COLLECTION

Split Container is an effective recycling collection method for multi-family residential, commercial, restaurants, light industrial, recyclables, green waste, food waste and many more uses. Split Containers are available in:

- 3 & 4 Cubic Yard Pitch Tops
- 6 & 8 Cubic Yard Humpbacks

Options Include:

- Plastic lids.
- 12 GA bottom, 10 GA casterplate.
- 12 GA interlocking banding.
- 11 GA 4"x 8" fork channels on ends reinforced at pick-up points. 3 cu yd with 6 gussets per channel, 4 cu yd with 8 gussets per channel.
- Channels available on bottom with 4 gussets per channel.
- Lid ears to accommodate plastic or steel lids.
- Zinc plated lid rod with 90 degree bend and nylon lock nut.
- 6" Roller bearing rubber swivel casters with grease fittings (450 lb. capacity each).
- 14 GA center divider with deflector to create 2 separate internal sections for trash & recyclables, or whatever your dual compartment needs are.
- Heavy duty sliding lock bar assembly so each container section can be secured and dumped independently of each other.
- Plastic lids with steel reinforcement frame to support closed lid while dumping other compartment.
- Exterior (including bottom) painted your choice of 2 standard colors with alkyd enamel paint to easily identify each section. Some colors may be extra.
