of your containers
& maximize uptime!**

GENUINE CONFAB
CONTAINER PARTS
plus a LARGE INVENTORY
of other OEM CONTAINER PARTS

CONFABTM
A California waste container company

Version 2, Summer 2016

A little TLC can go a long way.
Extend the life of your containers, maximize uptime!

Extending the life of your commercial waste container makes sense from both an economic and environmental perspective. Steel containers and roll-offs are built to withstand a lot; day in and out they are exposed to the elements. Poorly maintained lids and wheels that won't roll will impede work flow and contribute to illegal dumping around the container.

- Genuine CONFAB Parts
- Comprehensive selection of OEM roll-off & container parts
- **24/7 Access** to the largest selection of quality container and roll-off parts
- Most parts in-stock and ready to ship!

CASTERS

Keep Your Containers Rolling

Caster rigs and wheels are the first components to fail on containers. Rusting, metal fatigue and seized bearings are all common occurrences. A good caster should have 6mm forks welded on the inside and the outside for maximum stability. Casters should be replaced if you see any signs of fatiguing, as the rigs will soon bend or snap. If the wheel seizes, you may have to change the internal wheel bearings. Greasing the wheel via the zerk fitting will help bearings from seizing.

A Impact Poly "O" Swivel
6", 4x4.5 top plate
Individual: **W0326**
Crate of 350: **350-W0326**

B Economy Mold On Rubber Swivel

1/4" **KC437**

Quick Release Caster Pad
Fits 4x4.5 top plates: **H0808**

REPLACEMENT BOTTOMS

Extend the Life of your Container

Rainwater entering a dumpster can mix with waste in the container, forming leachate that will eat away at the bottom of the container. Using correct lids will ensure rainwater will not enter the container. If you have a bottom that needs replacement, the most cost effective

method to replace it may be a pre-fabricated container bottom. Labor time can be reduced by up to four hours using a pre-fabricated bottom, in addition to a correct fit.

Replacement Bottoms, 12 GA, 2.5" Lip			
1.5 YD	Individual: 18331	10-Pack: 10-18331

Looking for the right Financial Solution?

Did you know we offer 100% financing?
From \$5,000 - \$1.5 million, you can use our financing for containers or parts. With Ascentium, one of our financing partners, obtaining credit is hassle-free.

- Credit borrowers can obtain:**
- A credit decision within 2-hours
 - Flexible financing options, including step and deferred programs
 - An easy, streamlined process (one page documents for small ticket transactions)
 - Competitive rates

Additionally, financing your equipment can provide tax incentives. Learn more by visiting www.con-fab.com and click on the **Finance/Leasing Options** link.

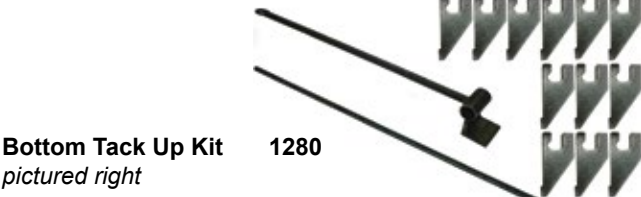

SAVE Valuable Shop Time

With these pre-assembled replacement bottoms, you save big in future caster replacements. The convenient bolt on quick release caster plates saves valuable shop time when replacing bottoms. No need to bring a container back into the shop for repair...servicing casters in the field has never been so easy!

Replacement Bottoms, 2 1/2" Lip		
Poly "O" Casters, 12 GA

Forklift Adapter
H1588

Shoehorn brackets double as a ruler too!

SAVE TIME measuring 6" from the bottom of the can by using the shoehorn.

PLASTIC LIDS & ACCESSORIES

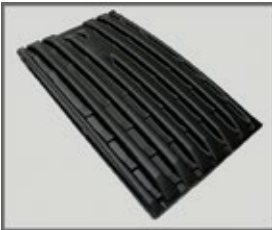

Extend the Life of your Container

Invest wisely. A quality manufactured dumpster lid should be maintenance free, and should last at least 5-7 years. Most lids are damaged beyond repair by fires, vandals and animal bites. Although impossible to stop, you can safeguard as much as possible by buying the best quality lids.

Impact Plastic Lids, Front Load
Impact Plastic lids contain 10% recycled plastic and are 100% recyclable.

THE PERFECT FOOD WASTE SOLUTION

Food waste is heavy and corrosive.
Plastic lined steel bins last 10X longer
than plastic bins.

Exposed food waste is messy.
Keep the odors in and the pests out.

ORGANIC LID

PLASTIC BIN LINER

STEEL BIN

COMPLETE SOLUTION

Don't forget to use Odor Surrender
to eliminate odor problems.

The weight of food waste can cause **structural failures with plastic bins**. With our bin liners and organic lids you get the **best of both worlds**—the strength of steel with the protection of plastic.

Our 1, 2 or 3 yard Bin Liners are:

- Durable—they are protected by solid steel
- Easy to install and remove
- A good value—approximately 1/3 the cost of plastic bins

Our 3 yard Organic Lids are:

- Fully sealed—keep rain and unwanted pests out
- Durable—they are one full piece lid with a “lid-in-lid system” which means you can lift it easily with one hand
- Green—up to 40% recycled plastic

“My organics waste handling is much easier now and I don't have to purchase expensive plastic bins that have durability issues.” ~ Steve R., Sacramento

BIN LINERS

Have peace of mind and the best of both worlds...
A durable steel container with the practicality of a plastic liner.

Our bins handle the heavy weights of organics where plastic bins fail.

- Rust and leak proof...even with acidic and corrosive organic waste
- Our bin liners are 100% recyclable
- Easy to clean
- Interchangeable with standard front-load pitch-top containers
- Available in 1, 2 and 3 yard sizes

Perfect for a variety of industries

- Restaurants
- Schools
- Food Processing Plants
- Dairies
- Ranches/Farms
- Corporate Campuses
